System Overview

The Feedback Mechanism is a web system designed to efficiently collect, manage, and respond to feedback from clients. It promotes transparency, accountability, and continuous service improvement by ensuring that all feedbacks are properly recorded, monitored, and resolved.

The system features a real-time Dashboard for monitoring; structured management of Feedbacks, Employees, Departments, and Services; secure User administration with role-based Roles & Permissions; and customizable Configurations to align with organizational requirements.

CITY GOVERNMENT OF CARMONA
Help us serve you better!

This Client Satisfaction Measurement (CSM) tracks the customer experience of government offices. Your feedback on your recently concluded transaction will help this office serve you better service. Personal information shared will be kept confidential and you always have the option to not answer this form.

Strongly Agree Agree Neither Agree Nor Disagree Disagree Strongly Disagree N/A

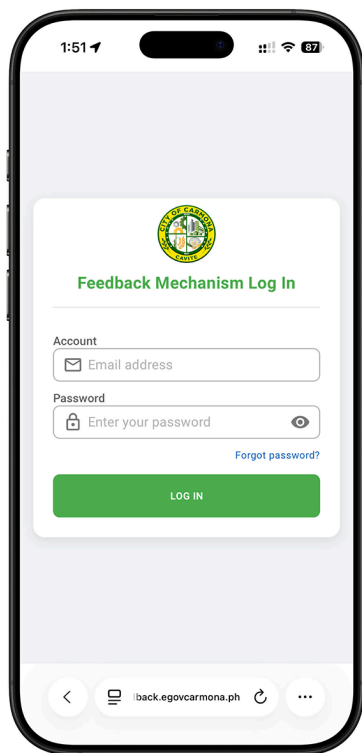

Thank you!
Your response has been successfully submitted.

Go back to home page

Open your browser and type feedback.egovcarmona.ph. Tap the **“Begin feedback”** button, then proceed answering the questions. After submitting your feedback, you are redirected to a page thanking you for giving your feedback—an SMS is also sent to you the contact number you provided.

Feedback Mechanism

Log in to system

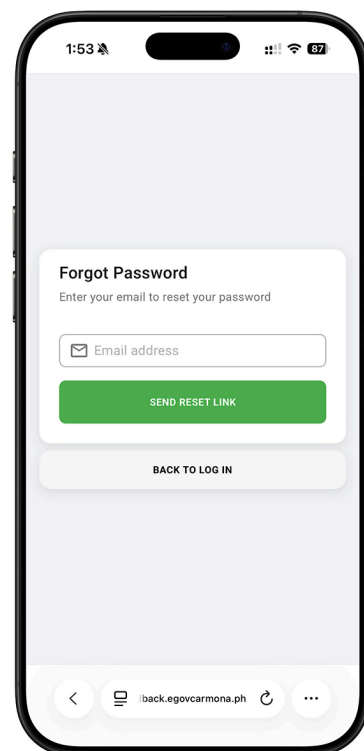

1

To access the **login page**, go to feedback.egovcarmona.ph/login. Enter your email address and password.

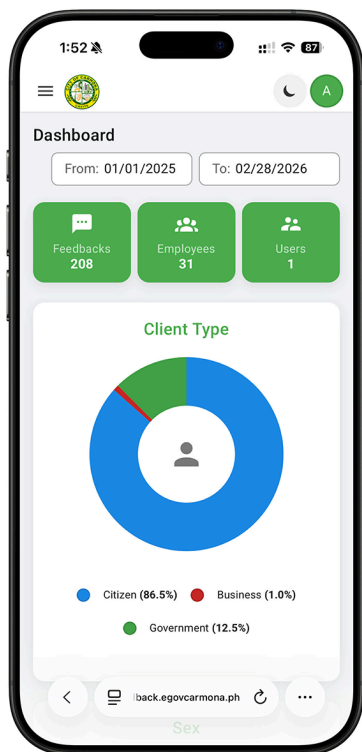

2

In case you forgot your password, tap the **"Forgot Password"** from the login page—it redirects you to **Forgot password page** and you have to put your active email where the link to reset your password is sent to.

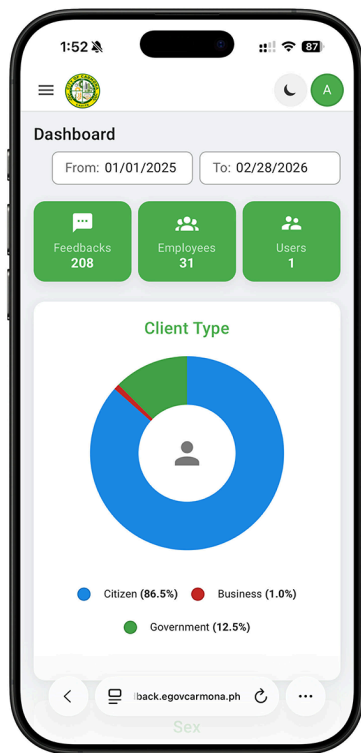

3

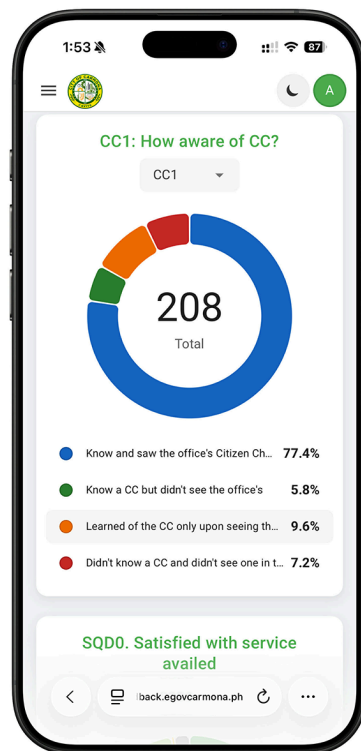

After successfully logging in, you are redirected to the **Dashboard page**.

Access Dashboard page

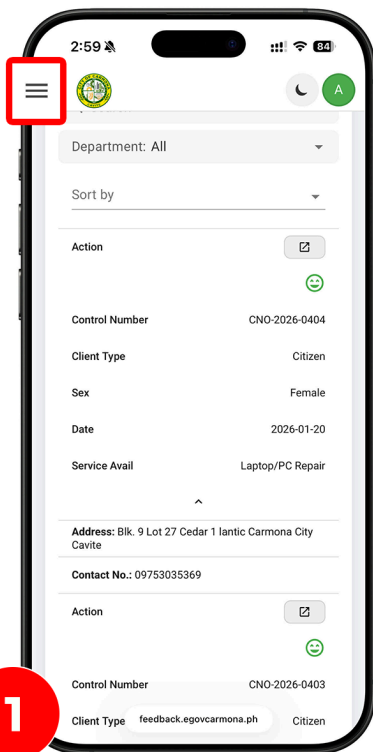

After successfully logging in, the system redirects you to the Dashboard page. On this page, the total number of **feedbacks, employees, users, client type, gender**, answers for **CC1-CC3** and **SQD0-SQD8** are shown, depending on the date range (from and to).

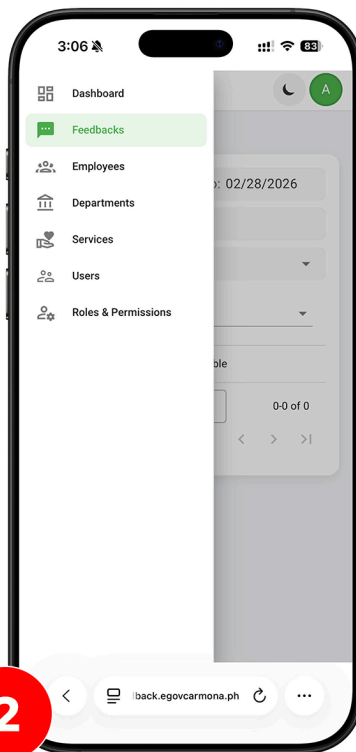

To view the details, you may click the **cards** (feedbacks, employees, and users). To interact with the **graphs** or **charts**, you may change the dropdown or click the **legends** or **labels**. You can also view the **suggestions** from clients by scrolling down below.

Access Feedbacks page

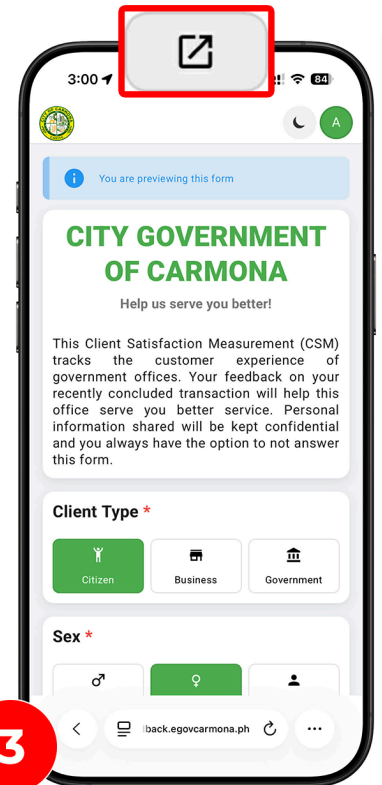

1

To access the feedbacks page, tap the highlighted button (**hamburger menu**) on the left.

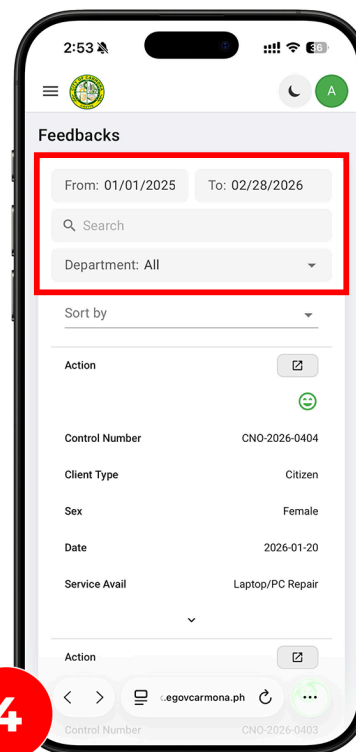

2

Then tap the **“Feedbacks”** menu.

3

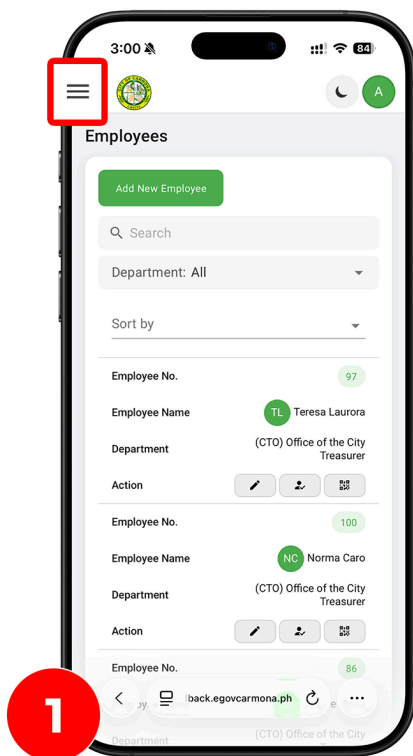

To preview a **feedback**, tap the highlighted button, located at the action section. To exit the preview, scroll down to the bottom and tap the **“Close Preview”** button.

4

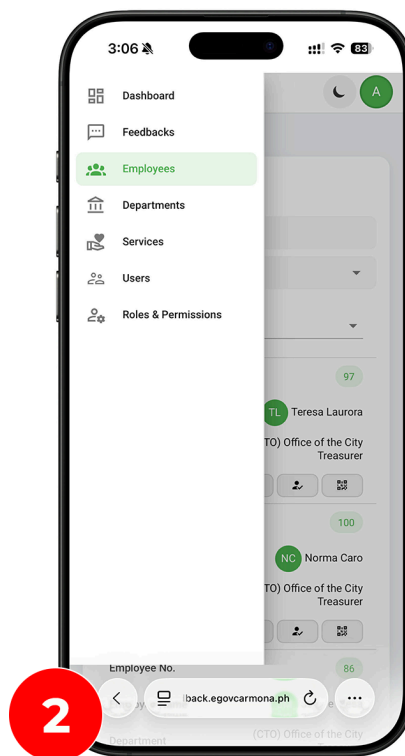

To view **more** or **less feedbacks**, adjust the date, search, and department filters.

Access Employees page

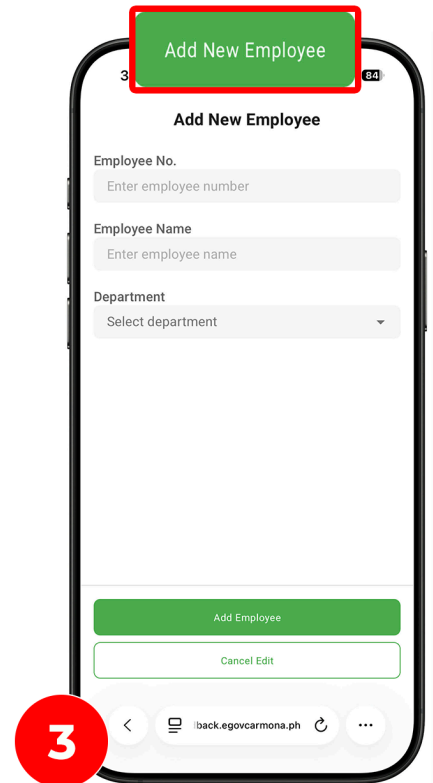

1

To access the employees page, tap the highlighted button (**hamburger menu**) on the left.

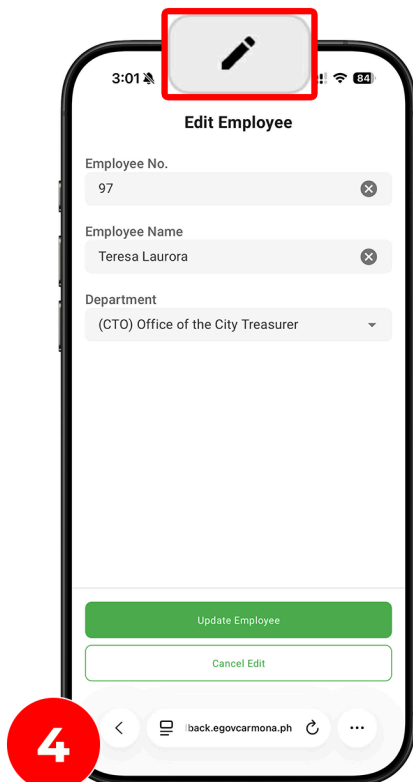

2

Then tap the **“Employees”** menu.

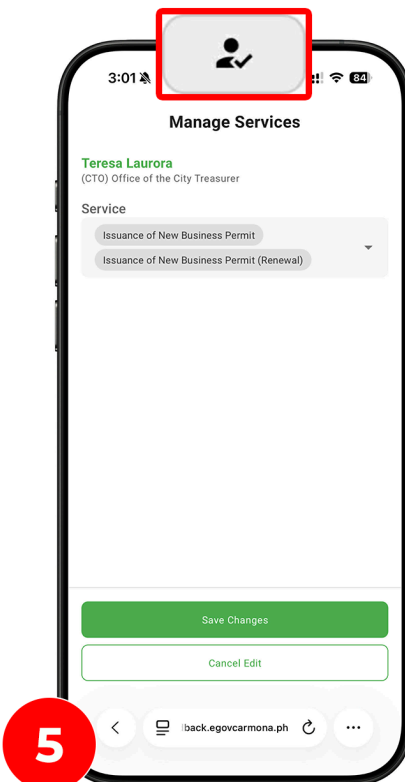

3

To add a new employee to the system, tap the **“Add New Employee”** button from the Employees page.

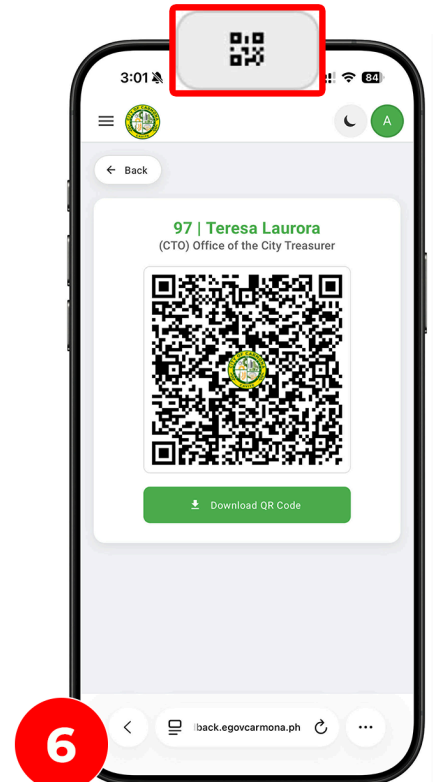

4

To edit the **employee’s information**, tap the highlighted button (Edit), located at the **action** section.

5

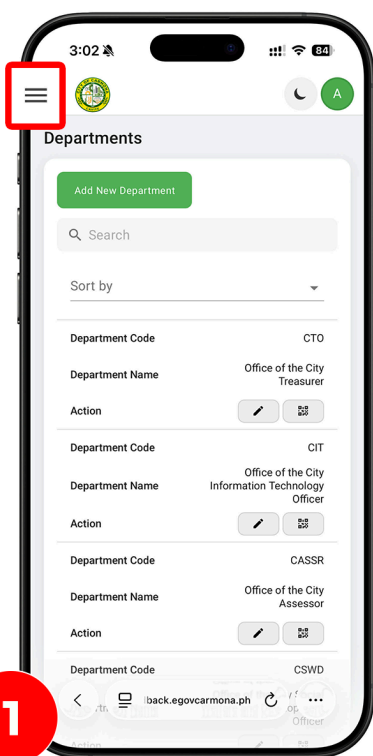

To assign a **service** to an employee, tap the highlighted button (Services), located at the **action** section. The available services depends to the saved services.

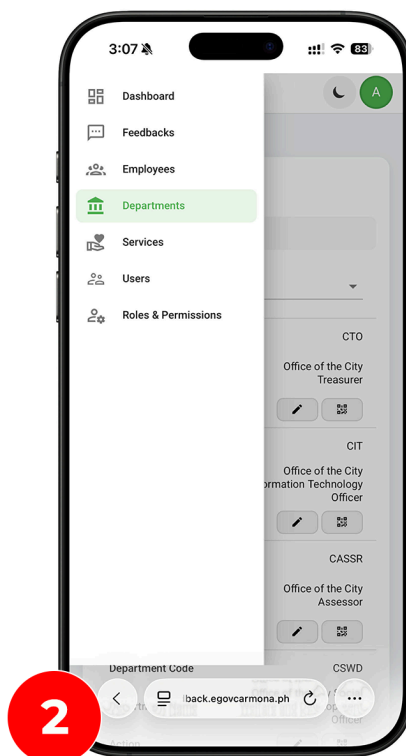

6

To generate a **QR code** for an employee, tap the highlighted button (QR Code), located at the **action** section. You may also **download** it.

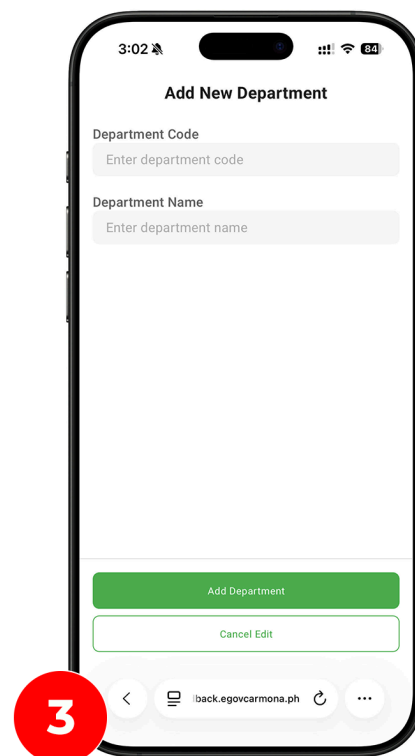

Access Departments page

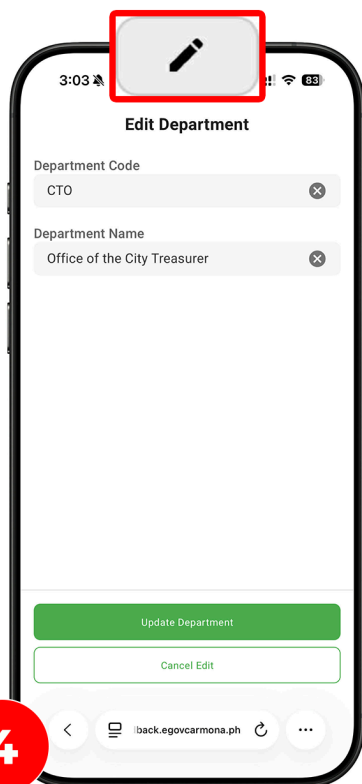

1 To access the departments page, tap the highlighted button (**hamburger menu**) on the left.

2 Then tap the **"Departments"** menu.

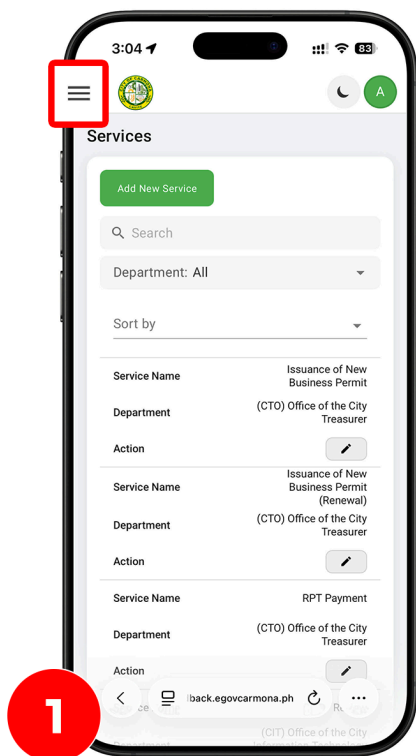

3 To add a new department to the system, tap the **"Add New Department"** button from the Departments page.

4 To edit the **department's information**, tap the highlighted button (Edit), located at the **action** section.

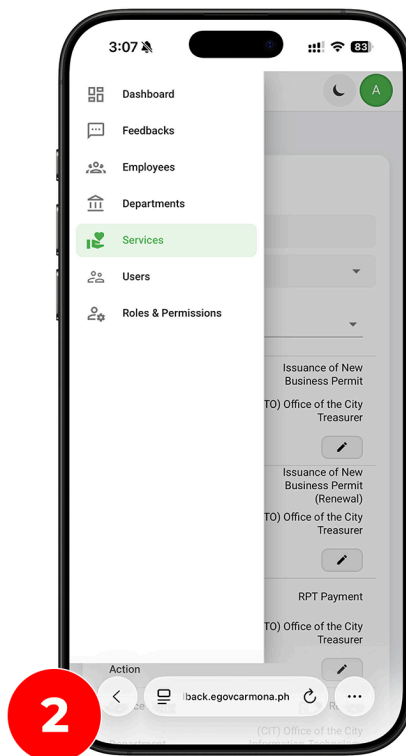

5 To generate a **QR code** for a department, tap the highlighted button (QR Code), located at the action section. You may also **download** it.

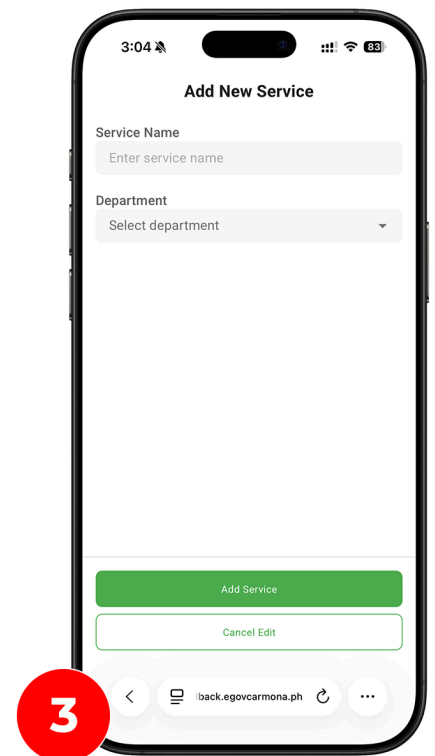

1

To access the services page, tap the highlighted button (**hamburger menu**) on the left.

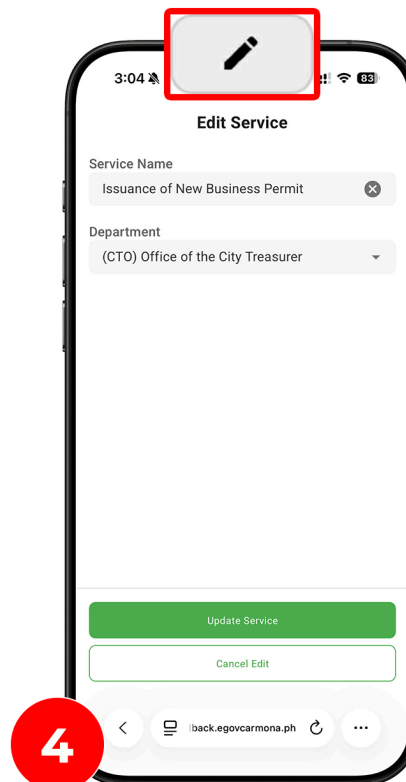

2

Then tap the **“Services”** menu.

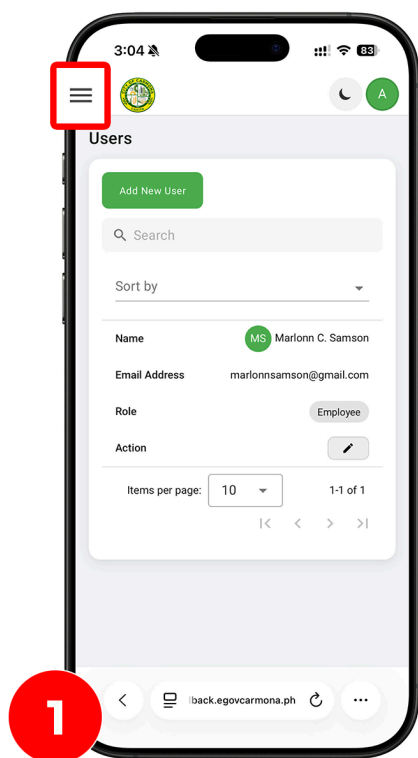

3

To add a new service to the system, tap the **“Add New Service”** button from the Services page.

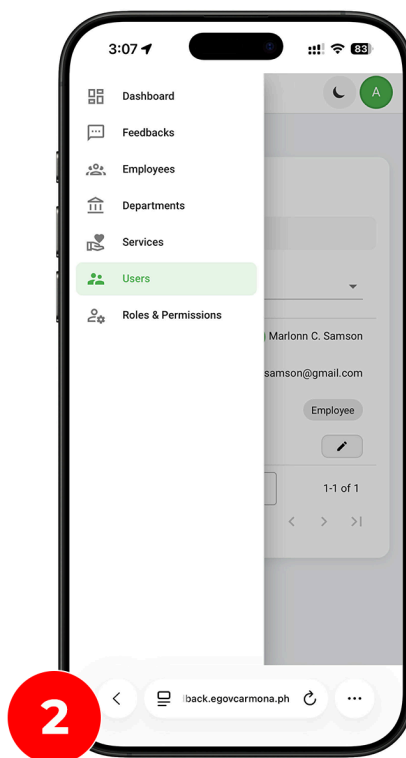

4

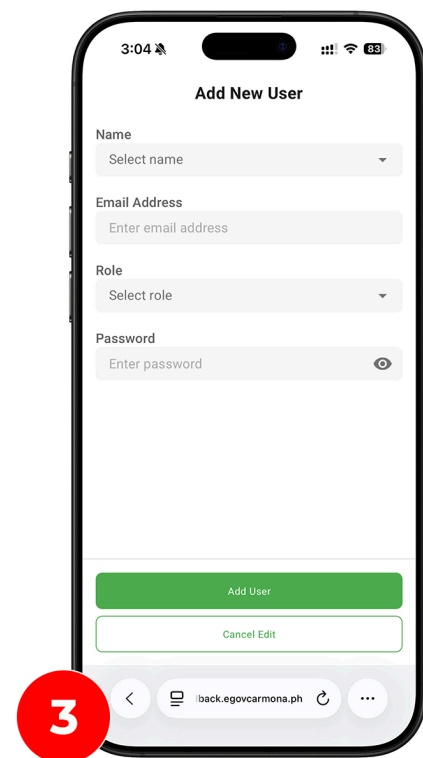

To edit the **service's information**, tap the highlighted button (Edit), located at the **action** section.

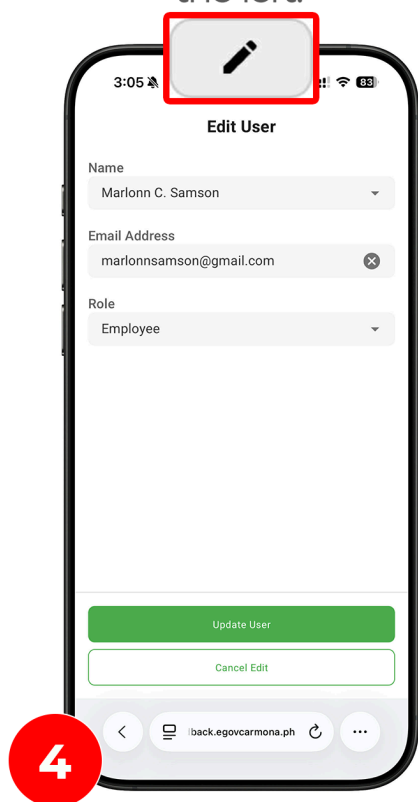

To access the users page, tap the highlighted button (**hamburger menu**) on the left.

Then tap the **"Users"** menu.

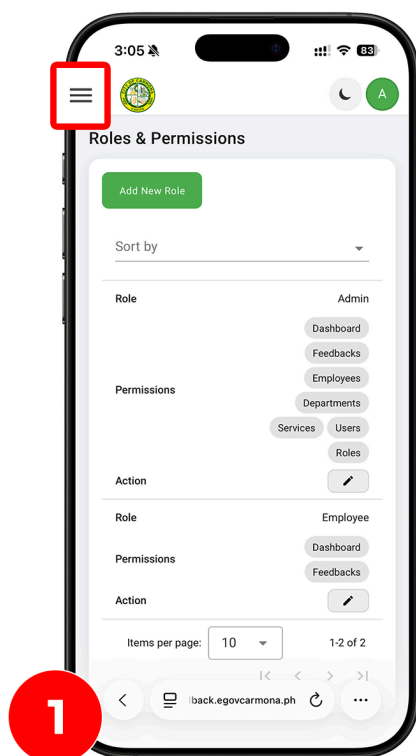

To add a new user to the system, tap the **"Add New User"** button from the Users page.

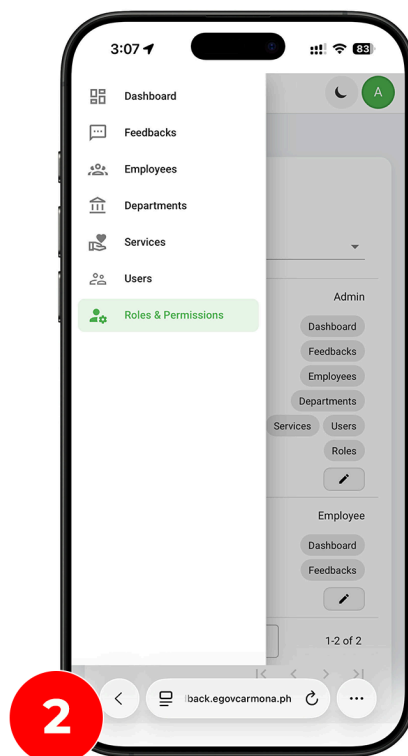

To edit the **user's information**, tap the highlighted button (Edit), located at the **action** section.

Note: All users added to this section are authorized to access the system based on their assigned **roles**..

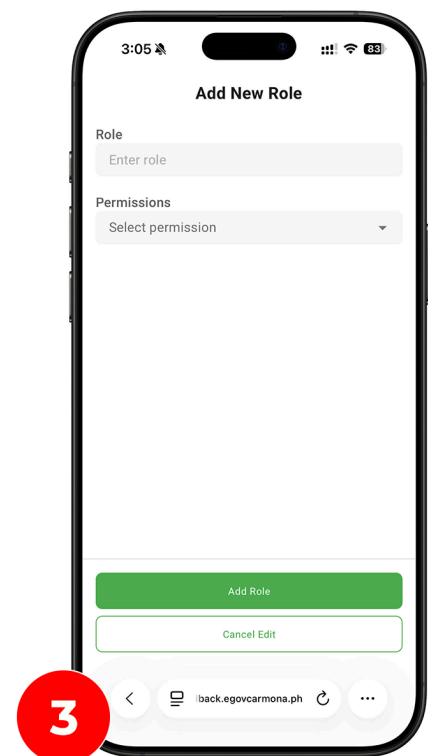

Access Roles & Permissions page

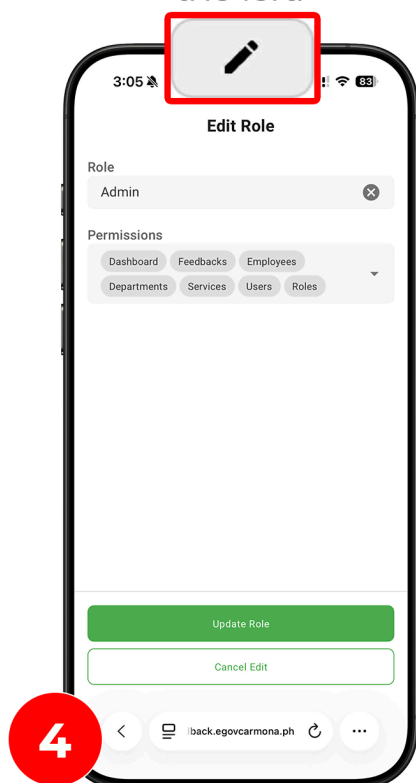

1 To access the roles & permissions page, tap the highlighted button (**hamburger menu**) on the left.

2 Then tap the **"Roles & Permissions"** menu.

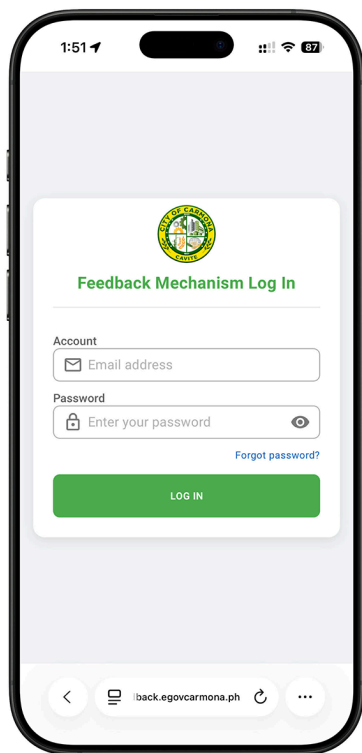

3 To add a new user to the system, tap the **"Add New Role"** button from the Roles & Permissions page.

4 To edit the **role's information and assigned permissions**, tap the highlighted button (Edit), located at the **action** section.

Note: The system includes the following **pre-defined permissions** by default: Dashboard, Feedbacks, Employees, Departments, Services, Users, and Roles. Each permission **corresponds** to a specific **system module**. When one or more permissions are **assigned** to a **role**, that role is granted access only to the **associated modules** within the system.

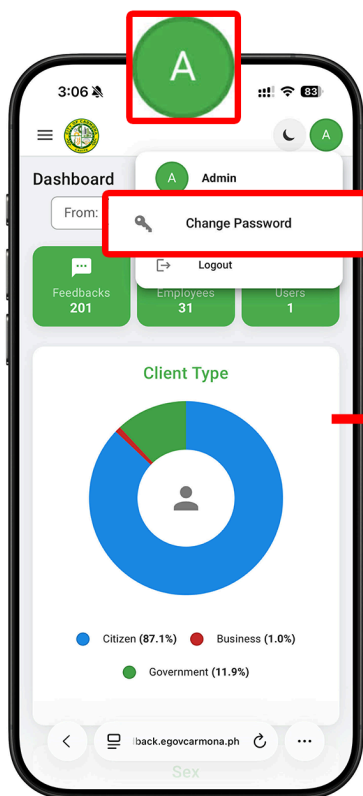

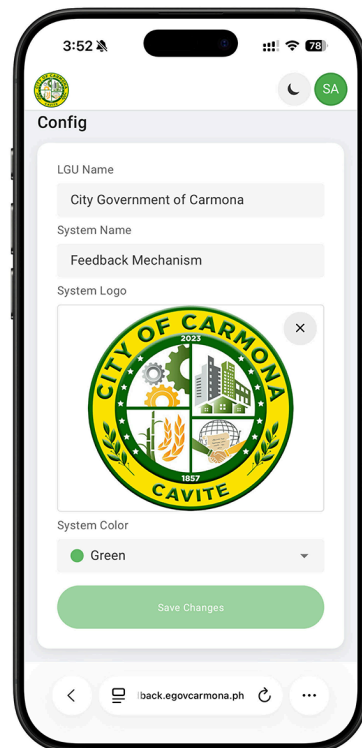

Access Configuration page

**1**

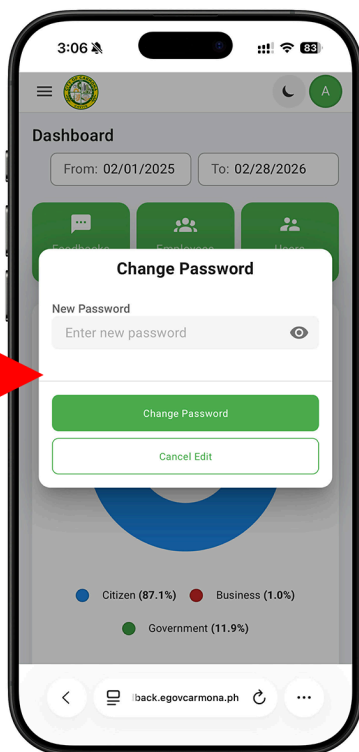

To access the configuration page, go to the **login page** (feedback.egovcarmona.ph/login) of the system. Enter the following credentials: **superadmin@gmail.com** for the email address and **superadmin** for the password.

2

After successfully **logging in**, you are redirected to the **Configuration page**. On this page, you can update the **LGU name**, **system name**, **system logo**, and **system color**.

**3**

To change your password, tap the highlighted icon above, and tap the "Change Password", then **enter** your **new password** and save.
