Objective:

The **main goal** of the **Real Property Tax Collection System** is to **organize** the **processes** in the Treasury's Office by providing **accurate data** and **managing records efficiently**, simultaneously keeping the records **secured**.

Features:

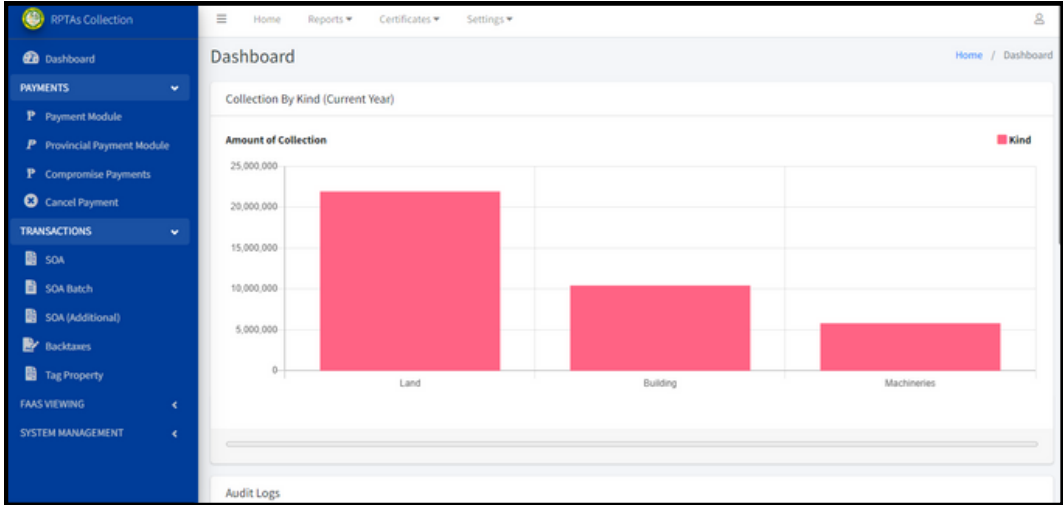

The Real Property Tax Collection System has the following features:

- It can be used to validate and compute taxes accurately, which helps its users monitor and archive payment transactions.
- It is also a highly customizable system with discount and interest configuration, annual due dates, and report generation.
- It generates fast and reliable information such as collection status, comparative reports, and other statistical data.
- It allows users to generate and print billing or statement of account (SOA).
- It allows payment transactions to be processed through online payment (Landbank) and walk-in transactions.
- It can generate reports that are BLGF compliant.
- The account and security features, such as IP whitelisting and Role-Based Access Control.
- It has a Geographic Information System Integration that can be used in tax mapping to identify and locate property easily.
- It has an SMS and Email notification.
- It has an Online Inquiry Module to determine and check payment transactions using mobile and web browsers.
- It has an audit trail or system logs for every user transaction.

- **LOG IN** - the user must log in to the system first before they can access the system. Incorrect login credentials (**username** and **password**) will not let the user access the system. A successful login will redirect the user to the dashboard of the system.

DASHBOARD

- **DASHBOARD** - the dashboard page is only accessible to the administrator of the system. On this page, the admin or user can see the **Bar Graph of Collection by Kind** for the current year (2023). Each bar graph (**Land**, **Building**, and **Machineries**) represents the amount of collection.

6	SYSTEM ADMIN	ORNO: 2370029OR Date: 2023-09-13 Total Amount Paid: 0.00	Print Payment	-	-	09/13/2023 02:13:02pm
7	SYSTEM ADMIN	SOA No.: 20230800412	Update SOA	-	-	08/30/2023 11:59:06am

In addition to this, the admin or user can also see the **Audit Logs** or the **activity logs** of users for every transaction made in the system. The audit logs is located below the bar graph.

TRANSACTIONS

- **SOA** - or Statement of Account, allows the user to **Compute**, **Post**, and **Print** the assessment details.

Search by: PIN Operator: Contains Transaction Date: 022-04-0010-115-05

PIN: 022-04-0010-115-05 Tag: FOR AUCTION

These section allows the user to filter the search results which will be shown in the table Assessment Details.

Search by: PIN

PIN: 022-04-00

The user can search by either **PIN** or **SOA No.** If the selected "**Search by**" is PIN, then the user must enter the PIN on the input box. Otherwise, the user must enter the SOA No.

Operator: Contains

0010-115-05 Tag:

The user can search by either **Contains** or **Equal**. If the selected "**Operator**" is Contains, the user is not required to enter the whole PIN. If not, then the user is required to do so.

TRANSACTIONS

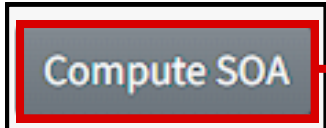

Transaction Date

Validity Date

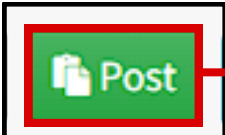

15/09/2023

29/09/2023

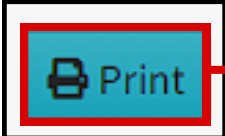

The user can also filter the results by changing the Transaction Date and Validity Date.

To **calculate** all of the **amount/values** in the Assessment Details table, click the **“Compute SOA”** button.

To **save** the **Statement of Account (SOA)**, click the **“Post”** button.

To **print** the generated SOA from the Assessment Details table, click the **“Print”** button (Note: By default, the print button is disabled, it only enables after clicking the post button).

- **SOA BATCH** - allows the user to **Compute**, **Post**, and **Print** the assessment details by batch.

TRANSACTIONS

To **search specifically**, select one from the dropdown selection.

Upon selecting any from the **“Search by”** dropdown, this will appear beside it and this changes based on the selected choice (TD/ARNP/Property Owner/Barangay/Street Name)

To **reset the search results** from the List of Property table, click the **“Refresh”** button.

To **view the results** in the List of Property table, click the **“Add”** button.

- **SOA ADDITIONAL** - allows the user to **Compute**, **Post**, and **Print** the assessment details for additional statement of accounts.

TRANSACTIONS

To **view the results** in the Assessment Details table, enter the **TD** or **PIN** only.

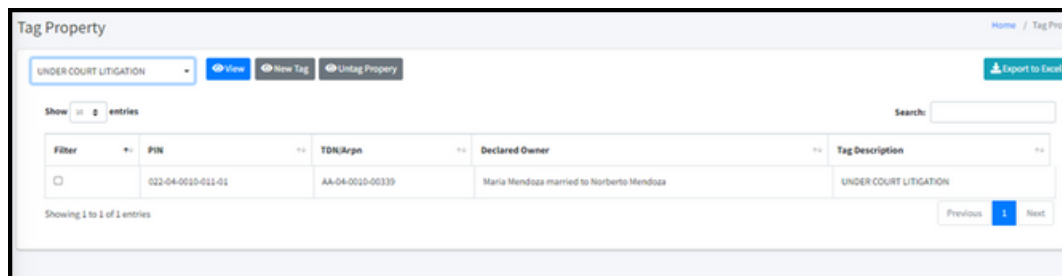

Tax Year	Quarter	PIN	ARP	Assessed Value	Basic	SEF	Total	Payment Status
2024	F	022-04-0010-115-05	AA-04-0010-115-05	142,000	1,420	1,420	2,840	NOT PAID

- **Backtaxes** - allows the user to **save Backtax** by **posting**.

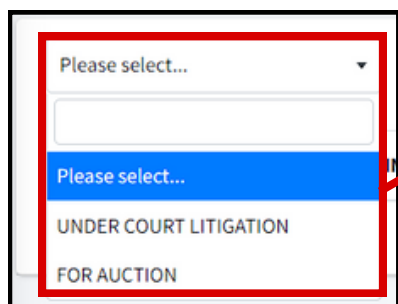

To **view the results** in the Assessment Details table, enter the **TD** or **PIN** together with the **Start Year** and **End Year**.

To **alter or update the assessed value**, click the **“Change Assessed Value”** then enter the new value.

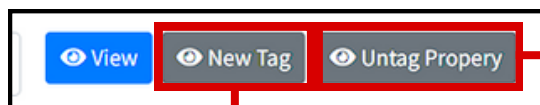

TRANSACTIONS

- **TAG PROPERTY** - allows the user to add New Tag and Untag Property.

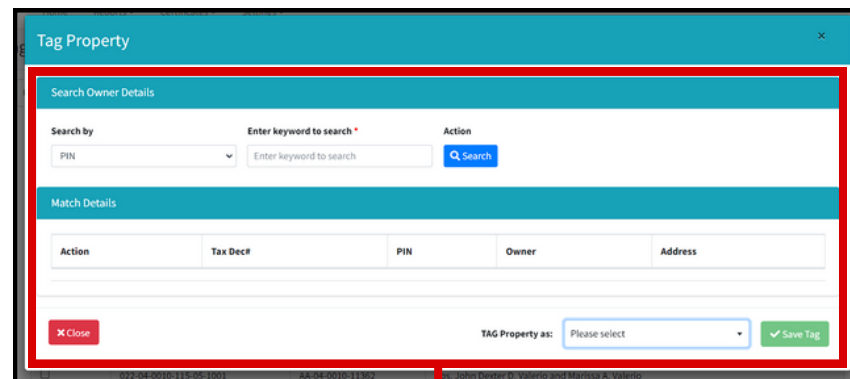

To **view data**, select one from one of the selection on the dropdown.

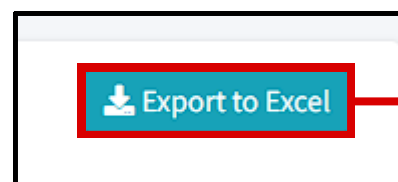

To **add a new tag** to the property, click the **“New Tag”** button.

To **remove the tag** from a property, click the **“Untag Property”** button. Before that, make sure to select row/rows from the table, by ticking the checkbox/checkboxes.

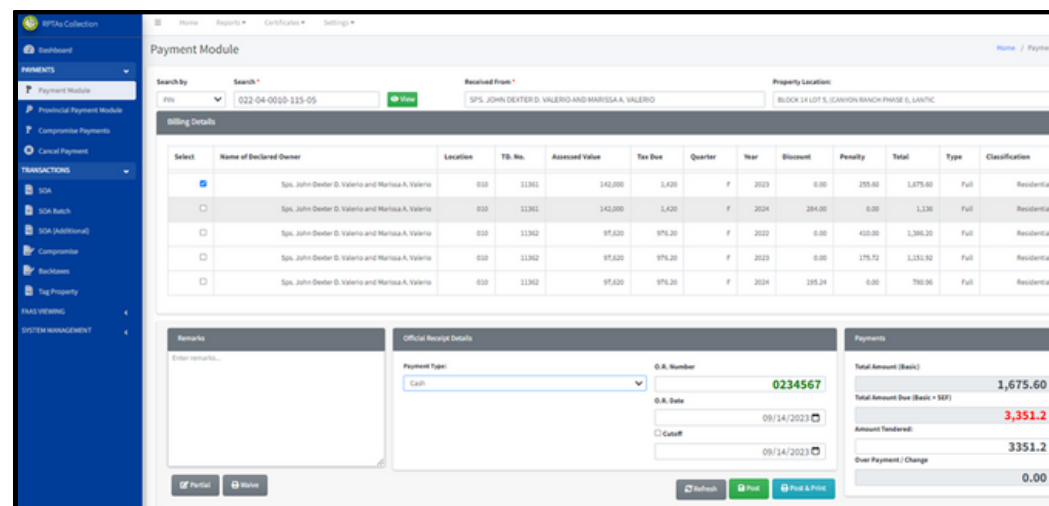

After clicking the **“New Tag”** button, a dialog box will appear. Enter the details needed to proceed.

To **have a copy of data in Excel file**, click the **“Export to Excel”** button.

PAYMENTS

PAYMENTS
